

# vibesrails - Quick Start

## 1. Installer

```
pip install vibesrails
```

## 2. Setup (dans ton projet)

```
cd mon-projet/  
vibesrails --setup
```

## 3. Utiliser

Commit normalement - vibesrails scanne automatiquement

```
git add .  
git commit -m 'my changes'
```

## Commandes

```
vibesrails          # Scan staged files  
vibesrails --all    # Scan all files  
vibesrails --fix     # Auto-fix simple patterns  
vibesrails --show   # Show active patterns
```
